

October 1, 2014

Dear Valued Customer,

Our records indicate that your company has purchased a Racal Instruments™ 6084 Digitizer and/or DMM options for the 6084 Digitizer during the last 5 years. The item you purchased may have been branded as Racal Instruments™, EADS North America Test and Services or Astronics Test Systems.

The Racal Instruments™ 6084 family of Digitizers and DMM's were introduced in 2009. Selected 6084 models are transitioning to obsolete status as indicated below. Other (non-listed) versions of the 6084 and 6084A remain current and available for order.

As we have been unable to identify a source for obsolete components, the 6084 products listed below are obsolete with no last time buy program.

**Selected 6084 Digitizers and DMM's - Obsolete Status with no last-time-buy opportunity:**

<u>Part Number</u>	<u>Model Number</u>	<u>Description</u>
408207	6084-084	6084-084 : Quad 8-bit, 4 GS/s Digitizer
408206	6084-084-DM2	6084-084-DM2 : Quad 8-bit, 4 GS/s Digitizer with 7.5 digit DMM

We regret that we are unable to accept further production orders for any of the above-listed items.

**Available Service, Calibration, Repair and Support for the above products:**

Full service, calibration, repair, and customer support will remain available for these products for a target of 5 years from the date of obsolescence, provided that the components required for the repair remain available. Once components required for repairs are no longer available, service is provided on a best effort basis. For questions regarding Customer Support, please email [atshelpdesk@astronics.com](mailto:atshelpdesk@astronics.com) or call 1-(800) 722-2528.

**Suggested Replacements**

There are no drop-in replacements for the products mentioned above; however, customers are encouraged to consider other 6084 or 6084 instrument solutions for their replacements needs - shown below. Please contact an Astronics Sales Representative. to determine if these are suitable replacements for your application requirements.

<u>Part Number</u>	<u>Model Number</u>	<u>Description</u>
VX407C-S-2270A	6084A-104-DMM	6084A-104-DMM : Quad 10-bit, 4 GS/s

		Digitizer with 7.5 digit DMM (Wavetek 1362 replacement)
408206-S-2823	6084-MUX-DM2	6084-MUX-DM2 : 7.5 digit DMM with multiplexer (replaces the HP 70110/Opt. 1 MMS DMM and the E1412A VXI DMM)

We regret any inconvenience this may cause. We have instrumentation application engineers, and ATE integration specialists available to assist in providing state-of-the-art instrumentation solutions to meet your test needs.
