ATLAS Compiler
ATLAS Release 3.24.15 (20090430)
30 April 2009

1.0 Overview

The following describes an overview of changes included within version 20090430 (3.24.15) of the following ATLAS support tools:

Signal Flow Analyzer

1.1 Enhancements

None

1.2 Problem Reports

08-038

2.0 Detailed Description

2.1 Problem Reports

2.1.1 08-038 Unwanted warnings issued by the Signal Flow Analyzer

The Signal Flow Analyzer was issuing warnings about inactive/active signals when there were "LEAVE" statements at the end of procedures.

The Signal Flow Analyzer was changed to handle this issue specific to the 1641 project. The change only affects the IEEE716.95/PAWS1641 subset/station as the change is only triggered by flags placed in the IEEE716.95/PAWS1641 subset/station lexical set.
